The Honorable Dave Obey
Chairman
Committee on Appropriations
2358 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Obey:

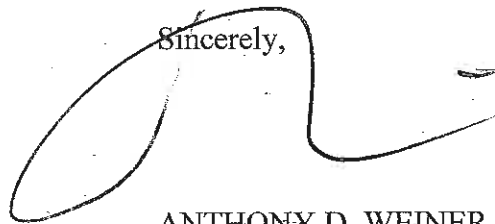

I want to make it very clear that I believe our current earmark process, while improved, remains largely dysfunctional. Despite an imperfect system, however, I think it's important to fight for my district and my City.

As an advocate for my constituents, I have submitted a list of projects that aspires to meet the important needs of my district. Many of these projects would likely have been overlooked by Executive Branch agencies that simply do not have a connection with the neighborhoods of my district or a focus on the challenges my constituents face.

Unfortunately, Member offices don't have the resources to examine every organization and program as thoroughly as we would prefer. My staff and I have reviewed all of the applications that have been submitted and we believe this collection of projects can help deliver essential services to the people of our district and our City. I commend the Committee for instituting a policy that my office adhered to last year to only consider requests from non-profit organizations. In addition to our efforts, I hope your staff will perform a more thorough review to ensure that taxpayer money is used responsibly and wisely to improve our communities and neighborhoods.

Should you have any questions about the attached list, or require further information, please don't hesitate to contact me. It's important that all projects meet the highest standards, and if you think they don't, please let me know.

Sincerely,

ANTHONY D. WEINER
Member of Congress
